WARNING

This document contains classified information affecting the national security of the United States within the meaning of the espionage laws U. S. Code Title 18, Sections 793 and 794. The law prohibits its transmission or the revelation of its contents in any manner to an unauthorized person, as well as its use in any manner prejudicial to the safety or interest of the United States or for the benefit of any foreign government to the detriment of the United States. It is to be seen only by personnel especially indoctrinated and authorized to receive TALENT-KEYHOLE information. Its security must be maintained in accordance with KEYHOLE and TALENT regulations.

NATIONAL PHOTOGRAPHIC INTERPRETATION CENTER

TOP SECRET

PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the NPIC Photographic Analysis Group.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training area or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

25X1A A training area is located 1 kilometer (km) northwest of Feodosiya (Figure 1) and is associated with Feodosiya Army Barracks Sargol (BE No [REDACTED])

25X1D The training area covers approximately 5,120 acres and contains an administration/support building, 11 storage buildings, 4 possible ammunition storage buildings, a motor park, a vehicle shed, a 6-gun AAA battery, a probable vehicle-mounted automatic-weapons firing range, and 26 support buildings (Figure 2).

The area is covered on TALENT photog-[REDACTED]

analysis reveals numerous changes between [REDACTED] Facilities constructed during this period include an administration/support building, 11 storage buildings, 4 possible ammunition storage buildings, 15 support buildings, and a 6-gun AAA site. A tank/assault-gun range was converted to a probable vehicle-mounted automatic-weapons range, and a figure-8 wheeled-vehicle driver-training course was activated during this period. Between [REDACTED] a secured motor park was constructed. Track activity is light to medium on all coverage.

DESCRIPTION OF INSTALLATION

Road Service

A primary all-weather road provides access to Feodosiya.

Administration and Troop Housing Area

25X1D Area D contains an administration/support building and 5 support buildings. The administration/support building was constructed between [REDACTED]

Feodosiya Army Barracks Sarygol provides the primary housing and logistic support for the training area.

General Storage Area

25X1D Area E is secured and contains 10 storage buildings, which were constructed between [REDACTED]
25X1D [REDACTED] Another storage building and 4 support buildings are situated along the road that serves the secured area.

Ammunition Storage Area

Area F is secured and contains 4 possible ammunition storage buildings. These buildings were constructed between [REDACTED]

POL Storage Area

25X1A The Feodosiya Petroleum Storage Area (BE No [REDACTED]) located 2 km northeast contains 24 medium and 3 small vertical tanks.

Other Buildings

At least 11 support buildings are scattered throughout the installation. Five of these buildings were constructed prior to [REDACTED] All of the buildings were present by [REDACTED]

Equipment Storage/Maintenance Areas

Area J1 is a secured motor park measuring

480 by 300 feet. This was constructed between

Area J2 is secured and contains a vehicle shed measuring 420 by 45 feet and 6 support buildings.

Driver-Training Area

Area M is a figure-8, closed-circuit, wheeled-vehicle driver-training course. This course was first observed on cover-

Tank/Assault-Gun Firing Range

Two moving-target runs are located in the northwestern part of the training area (Area N), but these do not appear active on any coverage.

Artillery Emplacements (Batteries)

Area Q contains a 6-gun AAA site which was constructed between It does not appear to be active.

Special Training Facilities

Area S is a probable vehicle-mounted automatic-weapons firing range and contains 4 moving-target runs, 2 probable moving-target runs, a loop road, and 3 static firing positions. The maximum distance from the loop road to the moving-target runs is 2,400 feet. This facility was first observed on photography of when it was used for tank/assault guns. No evidence of tank/assault-gun training is visible on photography of
